AFFIDAVIT TO DISCONNECT WATER SERVICE

Date: _____

RE: _____, Riverdale, IL 60827
(Property Address)

I, (name of owner/representative) _____, understand and acknowledge that I will be responsible for any cost that may incur from water being turned off to the above-mentioned property per my request. I also understand that I must schedule an appointment with the Public Works department in advance and have someone available to be there to give them access to the property to have water turned back on.

I further understand that in order to have water turned off a **\$110.00** disconnection fee is required. Water will be disconnected after payment is received. In order to have water re-established to property, an additional reconnection fee of \$110.00 will be required plus any outstanding debt that is owed to the property must be paid.

Furthermore, the Village of Riverdale **will not be responsible** for any damage that might occur to any of the property while water is off. The account will be monitored for any illegal turn on by anyone other than a Village employee. Any expenses incurred as a result of this lies solely on the responsibility of the owner of the property.

If a tenant occupies the property, the landlord must notify said tenant in writing within 48 hours of water termination.
