AFFIDAVIT FOR WATER TURNED ON FOR INSPECTIONS ONLY

Date: _____

RE: _____, Riverdale, IL 60827
(Property Address)

I, (name of individual) _____, understand and acknowledge that I will be responsible for any costs that may incur from water being turned on to the above-mentioned property for an inspection. I also understand that I must schedule an appointment with the Public Works department 48 hours in advance and have someone available to be there to give them access to the property to have water turned on.

I further understand that in order to have water turned on for inspection a **\$110.00** reconnection fee is required. Water will be disconnected after inspection. Any consumption used while water is turned on will be your responsibility. Also, if I obtain said property an additional \$165.00 water deposit will need to be paid and you will need to go back to Village Hall to fill out the required paperwork. No additional reconnection fees will apply if you are the original individual purchasing the property. All outstanding debt still must be paid on the property in order to receive a transfer stamp.

Furthermore, the Village of Riverdale **will not be responsible** for any damage that might occur to any of the property including the pipes if the property has been winterized. The pipes will no longer be winterized if water is turned on to said property. This can cause pipes to explode and cause water damage especially if no heat is provided to the property.
